

# By Myself

Mousse T.

I know you wanna change me  
I know you'd like to make me beg you please  
Criticize and break me  
Make me walk around on hands and knees  
Try to comprehend me  
We can still be friends see  
I thought a lot about it  
I have to move on outta here

I wanna be free, free completely  
Living all by myself

I wanna be good, bad, happy, sad  
Living all by myself

Know I don't wanna hate you  
And I don't wanna cry myself to sleep  
Or get a nervous breakdown  
I thank you for my lose of self esteem  
So try to understand me  
I need to live my life free  
Cried enough about it  
I have to move on outta here

I wanna be free, free completely  
Living all by myself

I wanna be good, bad, happy, sad  
Living all by myself

Just Wanna be mine, mine only child  
Living all by myself

I Wanna be easy, easy come and go  
Living all by myself

I wanna be free, free completely  
Living all by myself

I wanna be good, bad, happy, sad  
Living all by myself

Just Wanna be mine, mine only child  
Living all by myself

I Wanna be easy, easy come and go  
Living all by myself

I wanna be free, free completely  
Living all by myself  
By myself  
All by myself  
All by myself  
All by myself  
Just by myself  
A little while like an only child by myself  
Just free to be me completely by myself
