

Your love is like my favorite pop music  
Coming out the radio sound  
And if I tried I couldn't refuse it  
It lifts me when I'm feeling down  
Your touch is like a sweet soul melody  
I'm a junkie for your stuff  
And since I've been in tune with you girl  
I can't seem to get enough

I never thought I would say this  
But it seems I was wrong  
'cause since I met you girl â?? I've had a feeling that is so strong  
It's taken so long to realize what I have  
So don't get me wrong when I say these words to you

Your love is like my favorite pop music  
Coming out the radio sound  
And if I tried I couldn't refuse it  
It lifts me when I'm feeling down  
Your touch is like a sweet soul melody  
I'm a junkie for your stuff  
And since I've been in tune with you girl  
I can't seem to get enough

I was too wrapped up in myself  
To notice that you were there  
Spent my time in situations that were leading nowhere  
It's taken so long to realize what I have  
But now that I know I wanna spend my life with you

Your love is like my favorite pop music  
Coming out the radio sound  
And if I tried I couldn't refuse it  
It lifts me when I'm feeling down  
Your touch is like a sweet soul melody  
I'm a junkie for your stuff  
And since I've been in tune with you girl  
I can't seem to get enough
