

## Ask And It Is Given

### Mouthwash

In this life man, you get what you ask for  
Be careful what you ask for  
It comes like a sandstorm  
Please believe you can have what you long for  
The things you feel strong for  
The things you'll work hard for  
So set your sights on the big or the little  
Or the things in the middle  
No one answers your riddles  
'Cause in this life man, you get what you ask for  
Be careful what you ask for  
It comes like a.....

We can start today  
We can start to live  
If we see no evil  
Hear no evil as well  
If we speak no evil  
We can live our lives so well

On your marks, on your starting positions  
Time to nurture those ambitions  
The sun it always glistens  
It's a world where you can make a difference  
Though it seems like no one listens  
They won't slow up on your pistons  
So set your sights on the big or the little  
Or the things in the middle  
No one answers your riddles
