

Saving Grace

Mouthwash

With eyes/a smile like yours that can make a man
Or they can break a man
I can't hide from what is true
And every time i try to make amends
I never comprehend
All i need is you

And every time i fall
I see your face
I realise your more to me than a saving grace

And don't you know that when you smile that i'm smiling to
It doesn't always show
But believe me when i tell you girl when i'm not listening
Its because i'm thinking about you
