

## That Girl

### Mouthwash

She was the kind of girl you'd call a live one  
Not the kind of girl you could bet your life on  
More the kind of girl you can't take your eyes from  
Not the kind of girl you would take advice on

But when I'm with her she puts my head in a daze  
And when they see her, my friends they all say

That girl, she'll be gone on the double  
That girl, lose you in the shuffle  
That girl, she'll be gone on the double  
But me, I'm addicted to trouble  
I'm addicted to trouble

I'm the kind of guy who always thinks with his head  
But when it comes to her I think with something else  
instead  
Never been the type who's easily mislead  
But if she asked me to, I'd do anything she said

If I ain't seen her I think about her all day  
But when I'm with her, my friends they all say

That girl, she'll be gone on the double  
That girl, lose you in the shuffle  
That girl, she'll be gone on the double  
But me, I'm addicted to trouble  
I'm addicted to trouble
