

## Grow On, Grow Up, Grow Out

### Moving Mountains

Oh god,  
What the fuck is going on with me and everyone?  
It's you and me  
Someday we'll see the end  
Because you're in the sky and I'm in the earth  
But this time it's different  
I swear to god, the sun's exploding within my arms  
And it's getting warmer and I can see that the sun is truly in  
love with me  
Because you and I were blown away by love and hope for better d  
ays  
You and I were blown away
