

# God Of War

## Mozart Season

Unconscious-ly!  
I'll help finish up what you just start!  
don't interrupt  
defy the truth!  
your the one I'll beat up.  
When your beaten.  
You've joined fallen.  
Lay there on your face.  
Because you'll never be the same.  
You will know you never will  
Be the same!

I need to disguise all this.  
Creation we destroyed.  
Our faith in the walk.  
In the  
white rooms and angel way.

Now i think we made a big  
Now make the visions slow.  
Now promise a cigarette  
to every single lie about me.

What good is love  
when love is out of style.

Disasters your best friend.  
Be with you to the end.  
take it from me  
I'm still a mess.

Disasters your best friend.  
This is one trend I'll never follow.  
Take it from me  
I'm still a mess.

Mess!  
A mess!  
A mess!  
Look at this!  
I!  
Am still!  
A mess!  
You will wallow!

He stares in my eyes  
themselves.  
Soon I'm on my way to a place.  
Where the brightest crawls.  
Yesterday night you smiled.  
Should I deal or should I go?  
I'll wear my clothing wet  
Worsening the slightest sign of regret.

Disasters your best friend.  
Be with you to the end.  
take it from me

I'm still a mess.

Disasters your best friend.  
This is one trend I'll never follow.  
Take it from me  
I'm still a mess

Disasters your best friend.  
Be with you to the end.  
take it from me  
I'm still a mess.

Disasters your best friend.  
This is one trend I'll never follow.  
Take it from me  
I'm still a mess.

Mess!  
A mess!  
A mess!  
Look at this!  
I!  
Am still!  
A mess!  
You will wallow!
