

## Freezing

Mozella

The clouds in the sky have covered up my life  
And the day just stays gray 'till it's night  
And the darkness out side is a mirror to my eyes  
'Cause my soul won't reflect any light

Oh, I can't lie, I'm so lonely  
Oh, make it right and just hold me

'Cause I'm freezing, there's no way to stay warm  
Don't you need me?  
Left me out in the storm  
How could you for get me  
My sun shine has left me alone  
You're so cold

Freezing, like when rain turns to snow  
Don't you need me  
Like an old over coat  
The sea sons may change  
But the ice still remains in my soul  
You're so cold

The chills down my spine  
Are just memories of a time  
Now I'm haunted 'cause I thought  
You were mine  
I just can't get away  
I've been frozen in one place  
And I am not moving on  
Tell me why, I still love you, boy?
