

Hurry Up & Choose

Mozella

We keep playing this game
Where you catch my eye
And I look away
Things don't seem to change
So I just fantasize
And make you mine
I could pass the time
But I don't have the mind
To let it go
And never know
So please just save me

I don't want to tear you two apart
And I don't want to trample on her heart
Even if it takes awhile
I will make that time for you
But could you hurry up and choose

Sure they're other guys
And they treat me fine
But that's just not my style
If things were good at home
You wouldn't come to me
With those loving eyes
I could put in the time
To try and make you mine
But until you know what way to go
Then I'll be waiting

I don't want to tear you two apart
And I don't want to trample on her heart
Even if it takes awhile
I will make that time for you
But could you hurry up and choose

I pretend that things are fine
You just never leave my mind
I don't know what's wrong with me
I guess I just want to believe
That I mean more to you
And that you mean what you say
And that we will be together one day

I don't want to tear you two apart
And I don't want to trample on her heart
Even if it takes awhile
I will make that time for you
But could you hurry up and choose

I don't want to tear you two apart
And I don't want to trample on her heart
Even if it takes awhile
I will make that time for you
But could you hurry up and choose

I don't want to tear you two apart
(But I'm gonna, if I hafta)

And I don't want to trample on her heart
(She's a good girl and she loves ya)
Even if it takes awhile
I will make that time for you
But could you hurry up and choose
