

Wait, while I see
If this is something I can do
Yeah, this is something I can be

'Cause I have never tried
To show you who I really am
Without telling you lies

And don't hesitate
I'm standing on the edge of something
I'm just too numb to know what it is

If I can give it to you
You know I will
If I can give it to you
You know I will

I just wanna love you
I just wanna love you
I just wanna love you
And show you things that words can't do

Wait while I breathe
'Cause this is something that I still
And not fully conceive in you

Just don't know
The way this whole thing's turned on me
And I just can't let go undone

You made me wait
You're hanging on the edge of something
I'm just too numb to know what it is

If I can give it to you
You know I will
If I can give it to you
You know I will

I just wanna love you
I just wanna love you
Well, I just wanna love you
And show you things that words can't do

So there you go again
'Cause I say what you want
'Cause you want but you don't in time

Things will work out right
So you say but I can't wait
I can't wait

If I can give it to you
You know I will
If I can give it to you
You know I will

I just wanna love you
I just wanna love you
I just wanna love you
I just wanna love you

If I can give it to you
Then I will give it to you
I just wanna

I will give it to you
To you, to you
You, you, to you, yeah
