

# Let's Stop Calling It Love

Mozella

We are exactly what we are  
Let's disregard the talk of we're at and where we're going  
Why pick it all apart  
It's Just My heart  
It's just my heart

I started out with so much hope  
But now it's turned into a joke  
I'll play along expect no promise  
But while we're at it let's be honest

Let's stop calling it love  
Let's stop calling it love  
I'm better off if I surrender  
I give in you win whatever

Let's stop calling it love  
Let's stop calling it love  
Let it go you'll feel much better  
I give in you win whatever

You know, you put on quite a show  
You had me so  
I can't believe I bought it  
It took a minute but I caught it now  
I guess I had a choice  
Boys will be boys, and this girl's annoyed

I started out with so much hope  
But now it's turned into a joke  
I'll play along expect no promise  
But while we're at it let's be honest

Let's stop calling it love  
Let's stop calling it love  
I'm better off if I surrender  
I give in you win whatever

Let's stop calling it love  
Let's stop calling it love  
Let it go you'll feel much better  
I give in you win whatever

I thought I could handle  
A nice romantic scandal  
But now I know I was fooling myself  
I've seen how this story ends  
We do not call ourselves friends  
I'd rather not pretend and use that word again

(so he says, 'uh can I call you back later' so I said uh ok, 'alright later'  
and that was it)

Let's stop calling it love  
Let's stop calling it love  
I'm better off if I surrender  
I give in you win whatever

Let's stop calling it love  
Let's stop calling it love  
Let it go you'll feel much better  
I give in you win you win you win

Lets stop calling it love  
Lets stop calling it love  
I give in you win whatever
