

Love Is Endless

Mozella

one, for starry nights and
two, for candle lights and
three, for long walks in the sun
four, for all the laughter
five, for ever after
six, your smile is just the best.
Love is endless

Love, love love love, love love love, love love love
Love is endless
Love, love love love, love love love, love love love
Love is endless

seven, you're my goodluck charm
eight, for your open arms
nine, for best sunday in the rain.

ten, couldn't get much better
eleven, two once put together
twelve, all the joy and happiness.
Love is endless

count out loud,
all of the ways that life is good,
on different days,
how things can change
love always stays the same.

count out loud, it never ends the list goes on hit on again
forgive forget, and let your heart begin, love is endless

thirteen, I got brand new eyes
fourteen, everything's a surprise
fifteen, not a day that I regret,
Love is endless.
