

# You Wanted It

Mozella

Sweet and low and to the point  
You always get your way  
But I've long run out on any thoughts  
And words to fill the space

If this is suppose to be something more  
Then kindly explain what all the pain is for

'Cause you wanted it, you wanted it, don't lie to me  
Don't act like I wanted it more  
You wanted it, you wanted it, don't hide from me  
It's time that we settled the score  
Once and for all

And I pictured myself up in your face  
And then I pictured myself walking away  
But it never seems to go that way  
That's so much easier than what I've got to say

And if this is suppose to be something more  
Then kindly explain what all the pain is for

'Cause you wanted it, you wanted it, don't lie to me  
Don't act like I wanted it more  
You wanted it, you wanted it, don't cry to me  
It's time that we settled the score  
Once and for...

All you wanted was to wear me out  
Test my strength, prove my doubts  
That's what the losts about

You wanted it, you wanted it, don't lie to to me  
Don't act like I wanted it more  
You wanted it, you wanted it, don't cry to me  
It's sad that we settle the score  
Oh, it's sad that I evened the score once and for all  
Once and for all  
Once and for all
