

# Anything for You

Mr. Big

You have me burning up  
With your bad timing  
One small moment  
I'm lost in your love

I'm lost and innocent  
Turn my head around  
Your one liners  
I can do without

Easy come, easy go  
I can't back down, baby  
I should have let you know that

I would do anything for you  
Anything for you  
If I only had you by my side  
I would do anything for you  
Anything for you  
So wave goodbye  
Anything for you

One day comes  
And I disappear  
You'll get your independence  
Free and clear

Ah, you got it in you  
A chance to make it work  
Your heart will keep on beating  
And I'll still hurt

Easy come, easy go  
Before we throw it away  
Can't do here we're sayin', baby

I would do anything for you  
Anything for you  
If I only had you by my side  
I would do anything for you  
Anything for you  
If you say goodbye  
I'll be waiting for you

Easy come, easy go  
Before we throw it away  
I can't back down now, baby  
I should have let you know that

I would do anything for you  
Anything for you  
If I only had you by my side  
I would do anything for you  
Anything for you  
If you wave goodbye  
I'll still be waiting for you

I would do anything for you  
Anything for you  
If I only had you by my side  
Anything for you  
So wave goodbye  
Anything for you
