## As Far as I Can See

I watch the way your mouth is moving Like a detective at the crime I study your expression And the read between your lines

You know I've got a deep suspicion That you're out there playing games But I never see the faces I don't know the names

As far as I can see You belong to me It's heaven when you smile I can see the devil in your eyes It's better for my heart To keep me in the dark Are you telling lies or Someone to believe As far as I can see

I get the feeling that you're looking For another soul to steal You can feel the hunger And you're looking right at me

You know I've got a deep suspicion That you're out there playing games But I never see the faces I don't know the names

As far as I can see You belong to me It's heaven when you smile I can see the devil in your eyes It's better for my heart To keep me in the dark Are you telling lies or Someone to believe As far as I can see

I don't know what it is that keeps me hanging on I know there'll come a day when I'll look and You'll be gone You'll be gone

As far as I can see You belong to me It's heaven when you smile I can see the devil in your eyes It's better for my heart To keep me in the dark Are you telling lies or Someone to believe As far as I can see
