

Cheap Little Thrill

Mr. Big

Superstar girl in a strange little world,
Exit on a hustle made for two
Rock n' roll colossal, makin' such a fuss oh
Candy on a million dollar bill

I want to know if you got a strange fascination
And some time to kill
We can blow up the minds of the old congregation
For a cheap little thrill

Expressionistic space suit, exit on the parachute
The planet is a candle in a box
I'm swingin' from the grapevine, runnin' through the stop sign
Won't you show me yours, I'll show you mine

I want to know if you've got a strange fascination
And some time to kill
We can blow up the minds of the old congregation
For a cheap little thrill

I want to know if you've got a strange fascination
And some time to kill
We can blow up the minds of the old congregation
For a cheap little thrill

I know you've got a strange desperation
And some time to kill
We can blow up the minds of the old congregation
For a cheap little thrill
A cheap little thrill, a cheap little thrill
I know you've got a strange fascination
For a cheap little thrill
