

# Had Enough

Mr. Big

Ain't like any other day  
Finally comes a time to decide  
I won't spend another day  
Stuck here in the same old bind

I can see myself as much too strong  
To let this thing go on so long  
It ain't a case of right or wrong  
I'll put myself back up where I belong

R: Oh- Can't you see  
I've had enough had enough  
I've had enough

I don't forget too easily  
You're the one who told me a lie  
Now you know you're free to be  
Anybody's lover but mine

I can see myself as much too young  
It's not too late to stick to my guns  
I'll take it right back to square one  
When you turn around to look for me  
I'll be gone

R:

Why can't you see what you've done to me  
I'm not too sure of it myself  
The answer lies in a whole new beginning  
The second time around
