

## Take a Walk

Mr. Big

Equal Opportunity knocked  
Twice too late to stay on top of it all  
All for one, one for all.  
Push me, pull me, way too far  
One way or another someone's gotta take  
The fall, you better look at yourself

When you put your foot down baby  
You stomped down on me  
You made your last point baby  
It's all I can take

R: Take a walk -  
Take a long and lonely walk  
You better think about it  
Come back to a whole new start  
Cause-I wash my hands  
Of you and your plans to take over  
Take a walk

A lover's crime and punishment  
Is do this, do that and put your eyes  
Back in your head  
Let's play house instead  
You complain about everything  
You're not happy 'til the chain's  
Wrapped 'round my leg  
It's about time for a change

When you put your foot down baby  
You stomped down on me  
Too much is enough now, baby  
It's all I can take, so!
