

# The Light Of Day

Mr. Big

Had a good iii-dea, baby  
Leavin' town, look for somethin' new  
When I find myself believe all the lyin'  
Need get out, to find what's true  
Closed my eyes and put my finger down  
Land anywhere, on the map  
I won't stop, or think much about it  
It's my decision, and that is that  
Got a good idea now baby  
No turning back

Rollin & tumbling I drove all night  
Everywhere I look, is just... outta sight  
Now lady madonna can pray  
But will I ever see the light of day

First I turned up in oklahoma  
Not sure, what brought me here  
Took a wrong turn in albuquerque  
Bus driver man he can't steer  
Don't matter, where I'm going  
Long as I can leave my bags behind  
Only bring, what's in my heart now  
Find a good place to free my mind  
There ain't no way now, no never baby  
No turnin' back

Rollin & tumbling I drove all night  
Everywhere I look, is just... outta sight  
Now lady madonna can pray  
But will I ever see the light of day  
The moon climbs up and the sun crawls down  
One last stand in a one horse town  
Now lady madonna can pray

But will I ever see the light of day  
You might think, that I'm too lazy  
Livin' life the way I do  
But I'll know the place, when I find it  
Just come along, I'll show you too  
Got a good idea now baby  
No turnin' back

Rollin & tumbling I drove all night  
Everywhere I look, is just... outta sight  
Now lady madonna can pray  
But will I ever see the light of day  
When the moon climbs up and the sun crawls down  
Say goodbye to this one horse town  
Now lady madonna can pray  
But will I ever see the light of day
