

# What if We Were New?

Mr. Big

I recognize the signs  
Your baby-blues are vacant  
We get along like there is nothing wrong  
We've got some baggage that we got from the beginning  
I know you know there's ground that we don't walk on

Shutting my mouth  
Oh oh  
Doing without  
Suddenly someone gets a little colder

Well, what if we met tomorrow?  
Right out of the wild blue  
We'll get high (high) in another life  
Baby, what if we were new?

It's like we stumbled being comfortable in Limbo  
I miss the slippery twist of mystery, yes  
What ever happened to the girl behind the woman?  
I know you know the kind of man I used to be

Living out loud  
Turn it around  
And suddenly someone  
Gets a little closer

What if we met tomorrow?  
Right out of the wild blue  
We'll get high in another life  
Baby, what if we were new?

What if we cut up those picture-perfect faces?  
Make another me another you  
We'll get high (high) in another life  
Baby, what if we were new?  
Ah yeah

Turn the record over  
I'm sick of the same song  
I'm playing it too long  
Gotta be something better

Well, what if we met tomorrow?  
Right out of the wild blue  
We'll get high (high) in another life  
Baby, what if we were new?

Gotta be somethin' better  
Another me  
Another you  
We'll get high (high) in another life  
Baby, what if we were new?  
Ahh-oooh  
Oh now, what if we would still be something new?
