

Take Us Somewhere New

Mr Hudson

I say we step outside
(Come on, come on)
'Cos we can brave the cold
(We brave the cold)
The night is on freezeframe
(It's on, but double brandies)
Triple blaze the cold from my soul

I search for my Panama
Even though the summers which once were ours
Have died.

Take us out tonight
In the backside of your...
Take us somewhere new
You've got to take us out tonight
In the backseat please
Take us somewhere new

I say we drive all night
(Come on, come on)
Forget my temperature
(We'll brave the cold)
I love the motorway
The weather never let us roam
So wide or so far

Just keep 'em peeled for the exit light
Even though
The ballads that once I wrote
Have died

Take us out tonight
In the backside of your...
Take us somewhere new
You've got to take us out tonight
In the backseat please
Take us somewhere new

Take us out tonight
In the backside of your...
Take us somewhere new
You've got to take us out tonight
In the backseat please
Take us somewhere new

I say we step outside
'Cos we can brave the cold
The night is on freezeframe
And double brandies triple blaze the cold
From my soul
Triple blaze the cold from my soul

I say we step outside
'Cos we can brave the cold
The night is on freezeframe
And double brandies triple blaze the cold

From my soul
Triple blaze the cold from my soul

Take us out tonight
In the backside of your...
Take us somewhere new
You've got to take us out tonight
In the backseat please
Take us somewhere new

Anywhere will do
Just dig a shallow grave
How much will you save
By staying here

Just dig a shallow grave
How much will you save
By staying here

You've got to take us out tonight
Somewhere new, anywhere will do
Anywhere will do
