

# White Lies

Mr Hudson

Lying I still can't find the truth.  
So I spin another line on you  
You can't blame a fella for trying  
I'm hoping you eat my every word  
Doesn't it taste so good?  
But deep inside I'm dying

Oh! I wanna word with you  
If there's never a perfect time  
It's time for another white lie

White lies just another white lie  
I did it to get close to you  
And I will tell a million more  
White lies just another white lie  
I do it to get close to you  
And I will tell a million more white lies

One day I know you'll understand  
That I didn't really have much choice  
I just had to hide it  
Sometimes good men do bad things  
Just as bad men can do good  
Tell me which way you like it

Oh! I wanna word with you  
There's never a perfect time  
However much I try  
Oh! Why don't you sit yourself down?  
Cos we gotta talk this through  
It's time for another white lie...

White lies just a little white lie  
I did it to get close to you  
And I will tell a million more  
White lies just a little white lie  
I do it to get close to you  
And I will tell a million more white lies

Oh-oh oh-oh  
I was just playing girl I was just playing by your rules  
Oh-oh oh-oh  
Just another white lie and I'll tell a million more  
White lies
