

Watching the World

Mr. Mister

Rockets launch us to outerspace, far away from the human wastel
and
We're bringing heaven to other worlds, abandoning the home fire
s of our birth
There are fools who believe we can't live here as one
There are wisemen who believe it still can be done

Chorus:

Who is watching the world, who is changing the balance of power
Who is watching the world, are we building a future or just sta
nding still

We will harvest your fields of wheat for the promise of food to
eat
Forging ploughs of swords of war
We can stop all this fighting and open the door
Only fools would believe we can't live here as one
Who's to say it cannot be done

(chorus repeats 2x)

Watching the world, who is watching the world

Only fools would believe we can't live here as one
Who's to say it cannot be done

(chorus repeats 2x)

Who is watching the world, watching the world, watching the wor
ld
Who is watching the world - I don't see this world changing, ye
ah
Who is watching the world, watching the world, watching the wor
ld
Who is watching the world... (to fade)
