

Show Me The Way

Mr. President

Show me the way to your heart
And trust your emotions right from the start
Show me the way to your heart
Together forever, never to part

You and me we are made for each other
Together forever, each one for the other
We met each other on a friday night
I was the DJ and you looked alright
You're the girl in my arms that I can see
We two together it was meant to be
Would you have me to love and to hold me
Or better still girl do you really love me

I just can't believe it
I'm truly in love
You must have been sent
From heaven above

I even asked if you believed in marriage
Me and you in a horse drawn carriage
All I knew that my heart was gone
We're together and nothing can go wrong
One day I'll make this a love song
To let you know that you are the right one
Could you have me to love and to hold me
Or better still girl do you really love me

I just can't believe it
I'm truly in love
You must have been sent
From heaven above

Now that love is not just an illusion
Cause you came along to blow my confusions away
