Milk And Honey

Mr Twin Sister

I think it's time I bought you a suit The jacket fits right, the lining is wool I do try to look good for you If you love me you would try too

Save your money, spend it slowly Don't keep waiting for things to change Stay on with me, Milk & Honey Follow you into our old age

Why can't you be what I want you to be? You've got nothing going Will you ever throw in? Is it ever going to be easy going?

If you love me you would try too (6x)
