

All I Ever

Ms. Dynamite

When I'm with you I only feel completeness,
I can feel taste on my lips,
It's so hard to conceal the weakness caused by your fingertips.
If I told you just how deep my lovin' really goes for you,
And that you got all my trust,
If you knew tell me what would you do?

All I ever wanna do is love you,
That's why I take the time to make it special,
Night after night,
Night after night.
Everything I have is yours only yours,
Nothing ever touched my soul like this before,
Feels so right,
Feels so right.

Now if I told you taht you're worth the world and all it's love
to me,
If I told you that I wanna birth a family with you some day,
If I told you that I wanna grow old together what would you say
?
If I was to let you know I wanna see forever with you,
Would you run away?

If I told you I wanna be your drive,
Your strength and courage when your weak,
I send my angels out every night to protect you from the street
.
If you knew I'd sacrafice almost everything to keep you happy,
Would you let me love you for life,
It's all I want It's all I need
