

## How Does It Feel

MS MR

It feels like sinking in  
So unsure how to start, where to begin  
Distress hold the knife but I'm not afraid  
Love lost delinquents, I'll hold the blade

Fright as your crutch  
Crimson turned white  
No inch left untouched  
Before I've had my first bite  
Feels like sinking in

We try and evade our heartless cage  
This is no alarm for distress

How does it feel with my teeth in your heart?  
Don't back down again, no one leaves a scar quite like I can  
How does it feel when you've played your last card?  
In this together now, come this far won't let you down

I won't let you down  
(How does it feel?)  
Won't let you down  
(How does it feel?)  
I won't let you down  
(How does it feel?)  
Won't let you down

All for something all at once  
The burdens we reap will be the promise that we keep  
In the darkest hours I escape your eyes  
In the haze, and let these visions materialize

How does it feel with my teeth in your heart?  
No matter what you do, I'd shoot poison if it felt like you  
How does it feel when you've played your last card?  
In this together now, come this far won't let you down

I won't let you down  
(How does it feel?)  
Won't let you down  
(How does it feel?)  
I won't let you down  
(How does it feel?)  
Won't let you down

Pleasure in panic, just seize and hold tight  
My body will follow if you hold my mind  
Pleasure in panic, just seize and hold tight  
My body will follow if you hold my mind

How does it feel with my teeth in your heart?  
Don't back down again, no one leaves a scar quite like I can  
How does it feel when you've played your last card?  
In this together now, come this far won't let you down

I won't let you down  
(How does it feel?)

Won't let you down  
(How does it feel?)  
I won't let you down  
(How does it feel?)  
Won't let you down
