

# Time of my life

MS MR

From the east to the south  
I tongue the roof of my mouth

To new days of doubt without you

First gear  
I face the trouble ahead  
Final word has been said  
Long distance spread between us  
I tell myself to

Hold on  
It won't be long  
Till I grow through this struggle

Time to wake up  
Find my soul

Happy without you  
Happy without you  
Happy without you  
Happy without you  
Happy without you

Not called for weeks now  
Six days without sleep means  
I am a slave to my early grave  
If I do not be brave, behave  
Seize myself out of this mess  
I have created of myself, yet again  
Yet again I say

Hold on  
It won't be long  
till I grow through this struggle

Time to wake up  
Find my soul

Happy without you  
Happy without you  
Happy without you  
Happy without you  
Happy without you

We go on  
Heart beats strong  
Still whole  
Unbroken  
As we divide  
Our love, goodbye

Thanks for the time  
Time of my life

Happy without you  
Happy without you

Happy without you  
Happy without you

Time  
Time  
Of my life

Time  
Time  
Of my life (So happy without you)

Time  
Time  
Of my life

Thanks for the time of my life (Happy without you)  
Happy without you  
Happy without you
