

Flower Power

Mud

Imagine this, of the flower power,
My every wish is your command
We will love each other,
Help one another.
Let there be fools who look and laugh and laugh and
laugh.

Flower power stays on your mind.
Flower power makes you be kind.
All the time, you love your neighbour to keep with the
trend (love, love, love).
Flower power will grow and grow,
Flower power, let the people know,
There's peace on earth we'll love until the end.

Let's spread the news
Of the hippy's views
The bell has rung and war must cease.
As the rose will grow and the weed must die.
And long life makes us beautiful.

Imagine this, I've got flower power
Imagine this, I've got flower power
