

Time And Again

Mud

You don't know what you mean to me.
I think about you endlessly.
I tried to tell you that I'm falling .
Time and again,
Time and again.

You're in my dreams both night and day
They bring you near when you're away
Tried to tell you that I'm falling.
Time and again,
Time and again.

Once was a time I thought you knew,
But I was wrong.
There must be something that I can do or say.
What can I do to drive the blues away.
People they say that I am just hanging on
Must be foolish to hurt myself this way.

Time and again
I've only ever been your friend
Time and again
I'll wait for you.

Don't you know that I will stay with you forever
Baby don't you know it's true - I love you.

You don't know what you mean to me,
I think about you endlessly.
I tried to tell you that I love.
Time and again
Time and again
Time and again
Time and again
