

Iodine In My Coffee

Muddy Waters

I never will forget when you and I were for sure
I never will forget when you and I were for sure
You used to break my heart every night when I come home

For me little girl, you should kneel down on your knees and pray
For me little girl, you should kneel down on your knees and pray
I don't want to pray to love me, pray to drive your sins away

You used to put iodine in my coffee and rat poison in my bread
When I feel a little sleepy, you sprinkle lye all in my bed
For me little girl, you should kneel down on your knees and pray
I don't want you to pray to love me, pray to drive your sins away
