

Standin' Here Tremblin'

Muddy Waters

Well I have been standin' here and tremblin'
I don't know which a way to go

Well I have been standin' here and tremblin'
I don't know which a way to go

Well you know that little girl I been lovin'
she put me out in the ice and snow

Well I have been standin' here and tremblin'
I have you down in my knees

Well I have been standin' here and tremblin'
I have you down in my knees

You know I am going to tell my little baby
take me back if you please

I am still standin' here and tremblin'
I aint got no where to go

I am still standin' here and tremblin'
I got my whole heart in my hand

You know if i ever get lucky
I will show a woman how to treat a man
