Good Enough

Mudhoney

I've made mistakes That I'm sure I'll make again Guess I liked them enough The first time around No way to fight them No use denying The way it grows Uh-huh

Whatever happens Never thought for a second That I'd let go Uh-huh

Everybody says You must have lost your head Well, one more time is good enough for me Yeah, one more time is good enough for me

It's a hard road to your heart And there was a time when I never thought I'd get that far Uh-huh

Everybody says You must have lost your head Well, one more time is good enough for me Yeah, one more time is good enough for me
