

I'm Now

Mudhoney

Well I still see that look in her eyes
Passing thru security , waving goodbye
I had no idea that would be the last time
I had no idea about that look in her eyes... no
Aw, that look in her eyes
That look in her eyes
Well, the black light was my baby
And the strobe light was my mind

The past made no sense, the future looks tense
I'm Now

I call that radio quiz show
"What's the Next Thing Ya Know?"
I said, "The next thing I know, my baby's not there." WRONG
They said, "The next thing ya know ol' Jed's a millionaire."
Now how the hell was I supposed to guess that, huh?
The past made no sense, the future looks tense
I'm Now

Well, the black light was my baby
And the strobe light was my mind
The past made no sense, the future looks tense
I'm Now
