

Inside Out over You

Mudhoney

Before you slipped up beside me
I could tell it was you
You trigger something inside me
That makes me come unglued

A geological shift
If you get my drift
I'm feeling unstable 'cause I'm unable
To get you to stick

And when I turn around, turn around
That's when I turn inside out, inside out
Inside out over you

When you slide up behind me
I can tell you if it's you
You trigger something inside me
And I come unglued

You're a slippery thing
Yeah, I can feel your sting
In my fucked up gestalt I'm a slug in salt
Losing its skin
