

## Into the Drink

Mudhoney

You're messing, baby, messing hard  
Messing all the time  
Messing, sugar, messing busy  
You're messing in my mind

Well, I don't got what you want  
And I don't care what you think  
Better back off, back off, back off, baby  
You'll get dumped into the drink  
Into the drink  
Into the drink  
Into the drink

I don't need your judgment  
And I don't believe your lies  
I don't feel your lousy love  
I got rights to exercise

But I don't got what you want  
And I don't care what you think  
Better back off, back off, back off, baby  
You'll get dumped into the drink  
Into the drink  
Into the drink  
Into the drink

Your useless piece of weaponry  
Will never shoot me down  
If I didn't do it, no one could  
So waste another round

Well, I don't got what you want  
And I don't care what you think  
Better back off, back off, back off, baby  
If you don't, into the drink  
Into the drink  
Into the drink  
Into the drink
