Into the Drink

Mudhoney

You're messing, baby, messing hard Messing all the time Messing, sugar, messing busy You're messing in my mind

Well, I don't got what you want And I don't care what you think Better back off, back off, back off, baby You'll get dumped into the drink Into the drink Into the drink Into the drink

I don't need your judgment And I don't believe your lies I don't feel your lousy love I got rights to exercise

But I don't got what you want And I don't care what you think Better back off, back off, back off, baby You'll get dumped into the drink Into the drink Into the drink Into the drink

Your useless piece of weaponry Will never shoot me down If I didn't do it, no one could So waste another round

Well, I don't got what you want And I don't care what you think Better back off, back off, back off, baby If you don't, into the drink Into the drink Into the drink Into the drink
