

Our Time Is Now

Mudhoney

Our time is coming
Here comes our time
Our time is now
This is our time

They say that time is tight
Well, we're tight too
They say that times are tough
Yeah, we know just what we gotta do

They're crawling overhead
They're flying down below
They can see through walls
Still they don't know

Our time is coming
Here comes our time
Our time is now
This is our time

No we're not with you
We're not with them either
Given two lousy choices
We choose neither

Our time is coming
Here comes our time
Our time is now
This is our time
