

We Are Rising

Mudhoney

I feel it
You feel it too
I believe it's
High Time we broke thru
Like glaciers melting off the mountain
Building up against the dam
Like the rivers we are rising
It's High Time we made our stand
There's you and me, there's us and them
Gonna break it down and built it up again
There's you and me, there's us and them
Let's burn it down and write a whole new end

I'm rising
You're rising yeah
Together we will be flying
C'mon baby take my hand
