

A New Game

Mudvayne

Hunger inside me, that's always rising
To quench is to kill
Lusting enemy but you don't know me
Snatched against your will
To satisfy me, pick my victim
Stealth is me (those poor little girls)
So charming, say all the right things
Just come with me (let's go for a ride)
Trust me, believe me
Don't be so deceiving
God help me, betray me
From blood lust and beatings
I just wanna play
I just wanna play
A New Game

The hunter within me
That's always searching, thirst for the kill
Abducted, take away cursed with the patience
Of a thousand men
Peel my eyes, lock on target
The covert man (you never had a chance)
Don't be alarmed, want some candy?
Just right over here (now get inside)
Trust me, believe me
Don't be so deceiving
God help me, betray me
From blood lust and beatings
I just wanna play
I just wanna play
A New...

I just wanna play, I just wanna play
I just wanna play a game
A New Game

You meant everything to me
But now your time has come
Another broken doll to me
But now your time has come
You meant everything to me
But now your time has come
Another broken doll to me
But now your time has come

Let's take a ride

I just wanna play
I just wanna play a game
One that you've never played before
One that you'll never play again, I'm sure
I just wanna play
I just wanna play a game
One that you've never played before
One that you'll never play again, I'm sure
I just wanna play
I just wanna play a game

One that you've never played before
One that you'll never play again, I'm sure
