

Skrying

Mudvayne

This puzzle's dead inside
Missing pieces growing eyes,
Mystery
Little girls severity,
Little boys begging mercy
Sticks break on me
Cost of life at 23
Price of pain a golden ring
All crimson
Melting body rubber world
Battle axe with locks of curls
Introverted

My cost, the price of a broken doll, can you
Remember that place
The place you would go to make things okay,

1000 points for insect stings,
Glue my spirit, break my wings,
Misery
Libido steams infectious whore,
Cauterize and forge the sword,
Remember killing.

Children, learning the secret knock, a nickel
To enter that place,
The place you would go to make things okay,
My cost, the price of a broken doll, can you
Remember that place
The place you would go to take pain away,

Games of passion taste so sweet
Cut his throat and slaughter meat,
My secrets.
Seven heads for seven seas,
Darkened voices plead disease
Dismembering me

Children, wrestle to seal the bag, storing it deep
In that place,
The place you would go and try to escape
Children, learning the secret knock, a nickel
To enter that place,
The place you would go to make things okay,
My cost, the price of a broken doll, can you
Remember that place
The place you would go to take pain away,

Skrying through reflections in a pool,
I see death coming, mowing down,
Do you remember the bedroom,
Was it your cell or was it your tomb,

You're living through my hell

Children, learning the secret knock, a nickel
To enter that place,

The place you would go to make things okay,
My cost, the price of a broken doll, can you
Remember that place
The place you would go to take pain away
