

Candlestick

múm

Could've hit you with a candlestick
But I want you in my life forever and more
Should've crushed your cheek bone and your nose
But I kind of like your face
Yeah I like it like it is
I like it like it is forever and more

It's been a crazy summer
It's been alright
Could would should've hit you back then
But I really had to sleep
I had to take a nap
I had to take a nap forever and more

Was a pretty heavy candlestick
But my eyelids were the heaviest of all
Tried my best to do my monologue
But I messed up all my lines
I messed up all my words
I lost all sense of feeling in my tongue

It's been a crazy summer
It's been alright
Could would should've hit you back then
But I had to take a nap forever and more

It's been a crazy summer
It's been alright
Could would should've hit you back then
But I really had to sleep
I had to take a nap
I had to take a nap forever and more
