

Sweet Impressions

múm

Sweet impressions, looks of longing
Screaming through our sweet and precious house of loving
In the palace, dreaming mountains
Valleys climb in front of houses, dreaming mountains
If you took the time to look at all the signs
You could rest your head just knowing that all is fine
If you took the time to look at all the signs
You could rest your head just knowing that all is fine
Sweet impressions, house of longings
Screaming through our grassy meadow, driving herself safe
Nifty rivers moving teardrops
Rolling down the shiny treetops, love is all around
If you took the time to look at all the signs
You could rest your head just knowing that all is fine
If you took the time to look at all the signs
I could rest my head just knowing that
You've got time for, you've got time for love
You've got time for, you've got time for love
You've got time for, you've got time for love
You've got time for, you've got time for love
You've got time for love
You've got time for love
You've got time for love
You've got time for love
You've got time for love
You've got time for love
You've got time for love
