

The Colorful Stabwound

múm

Some people smile with every tooth
Some teeth will ache with every smile
I've said some things that ain't the truth
I've screamed some words that might seem vile

Some people smile with all their teeth
Some teeth will ache with every smile
I've done some things you won't believe
I've stabbed and scratched and spewed my bile

Some people smile with all their teeth
Some teeth will ache with every smile
I've done some things you won't believe
I've said some things that ain't the truth
I've screamed some words that might seem vile
I've done some things you won't believe
