

Time to Scream and Shout

múm

In the morning
When it's dawning
That's when we go out
Put our masks on
Put our clothes on
Time to scream and shout

It's time to scream and shout

While the sun sets
Orange dust cloud
Sweeps into the ground
We storm the palace
Burn the curtains
Time to think out loud

It's time to think out loud

In the evening
Streetlight beauty
That's when we go out
Smash the windows
Slash the tires
Time to scream and shout

It's time to scream and shout

In the moon peak
We go dancing
On the barren grace
All is quiet
All is quiet
Time to sleep for days

It's time to scream and shout
