

Toothwheels

múm

This door will never open
Why would it?
We never tried to
Exterminating angel
A black hole
Of beauty

In a world of complete make-believe
There's a chance to practice what we preach
In a world of complete make-believe
There's a chance to practice what we preach

In a world of complete make-believe
There's a chance to practice what we preach
Throw the hammer, burn the gasoline
We're all toothwheels in the death machine
