

## Toothwheels

múm

This door will never open  
Why would it?  
We never tried to  
Exterminating angel  
A black hole  
Of beauty

In a world of complete make-believe  
There's a chance to practice what we preach  
In a world of complete make-believe  
There's a chance to practice what we preach

In a world of complete make-believe  
There's a chance to practice what we preach  
Throw the hammer, burn the gasoline  
We're all toothwheels in the death machine
