## **Toothwheels**

múm

This door will never open Why would it?
We never tried to
Exterminating angel
A black hole
Of beauty

In a world of complete make-believe
There's a chance to practice what we preach
In a world of complete make-believe
There's a chance to practice what we preach

In a world of complete make-believe There's a chance to practice what we preach Throw the hammer, burn the gasoline We're all toothwheels in the death machine
