

# Ghosts That We Knew

Mumford & Sons

1. You saw my pain, washed out in the rain  
Broken glass, saw the blood run from my veins  
But you saw no fault no crack in my heart  
And you kneel beside my hope torn apart

X: But the ghosts that we knew will flicker from you  
And we'll live a long life

R: So give me hope in the darkness that I will see the light  
Cause oh that gave me such a fright  
But I will hold as long as you like  
Just promise me we'll be alright

2. So lead me back turn south from that place  
And close my eyes from my recent disgrace  
Cause you know my call we'll share my all  
Now children come and they will hear me roar

R: So give me hope in the darkness...

\*: But hold me still bury my heart on the cold  
And hold me still bury my heart on the cold

R: So give me hope in the darkness that I will see the light  
Cause oh that gave me such a fright  
But I will hold as long as you like  
Just promise me we'll be alright

X: But the ghosts that we knew...
