

The Wolf

Mumford & Sons

Wide eyed, with a heart made full of fright
Your eyes follow like traces in the night
And the tightrope, that you wander every time
You have been wait you have been found wanting

You've been wandering for days
How you felt me slip your mind
Leave behind your wanting ways
I want to learn to love and kind
Cause you were all I ever longed for

Shelter, you better keep the wolf back from the door
He wanders ever closer every night
And how he waits, baying for blood
I promised you everything would be fine

You've been wandering for days
How you felt me slip your mind
Leave behind your wanting ways
I want to learn to love and kind
Cause you were all I ever longed for

Oh my gaze, love you know I want to let it go
We will stand out at the wonder of it all
And I will hold you in
And I will hold you in

You've been wandering for days
How you felt me slip your mind
Leave behind your wanting ways
I want to look you in the eye
Cause you were all I ever longed for

You've been wandering for days
How you felt me slip your mind
Leave behind your wanting ways
I want to learn to love and kind
Cause you were all I ever longed for
